

What is so interesting about all these birds?

For children mostly all these different kind of feathers.

And what could you do with them?

- recognizing (which bird and feather go together)
- sorting (by size, color)
- crafting (birds)

- observing (magnifying glass for details)
- bird spotting (hide flashcards around the house and use binoculars to spot as many as you can)

What would you need for this lesson?

- print flashcards of different birds
- feathers (either ebay.com or any craft store)
- magnifying glass (big and small to show different details)
- binoculars
